

Cloud Computing

Date: Friday 9 March 2012 – 6:30pm for 7:00pm

Venue: Room RCH/037, The Ron Cooke Hub, Heslington East Campus, University of York, YO10 5GE

Speaker: Mr Dai Davis CEng, Director, Percy Crow Davis & Co Ltd

Cloud computing services can vastly increase your personal and business data storage capacity and enable sharing and transmission of large quantities of data. There are great advantages to using the “cloud” but there also risks: how safe is your data? How secure are the systems that allow access?

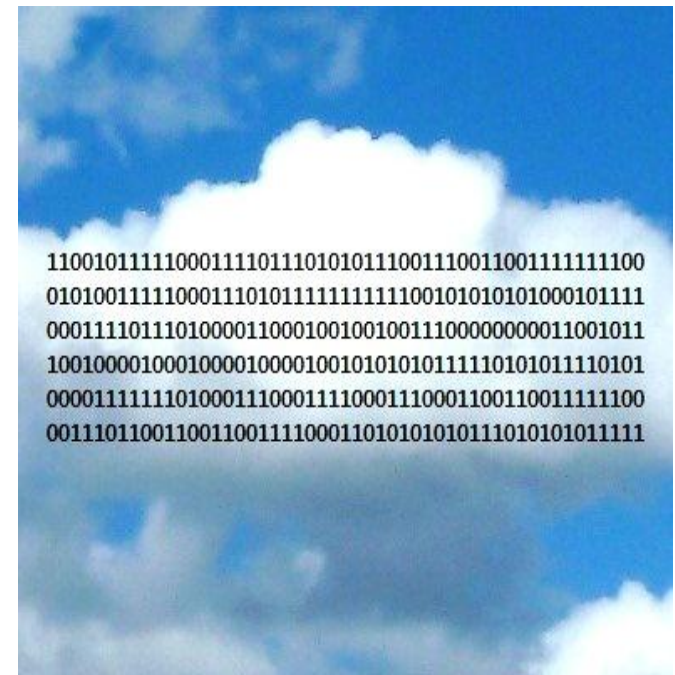

Find out how to use cloud computing effectively and securely at this free public lecture.

Dai Davis is a Chartered Engineer and Solicitor based in North Yorkshire

Entry to this event is **free of charge** and open to all.

Tea and coffee will be served at 6:30pm.

The lecture will start at 7:00pm

Pre-registration is preferred - For further information visit www.theiet.org/northyorks

Organised in association with the Department of Electronics, The University of York

The Institution of Engineering and Technology is registered as a charity in England and Wales (no 211014) and Scotland (no SCO08698).
